

CULLIGAN® HE SERIES

High-Efficiency Water Softeners

EXPERIENCE THE DIFFERENCE CULLIGAN CAN MAKE.

SYSTEM BENEFITS

- Reduces operating costs up to 46%*
- Real time status updates
- Optional interactive remote control
- Controls the feel of your water
- Automatic adjustments to water conditions

Introducing the World's Smartest Water Softener

For high-efficiency water softening, nothing can match the intelligent design of the Culligan HE Series water softener. Just how smart is the Culligan HE? Smart enough to alert you to low salt levels and other issues. Sophisticated enough to be controlled remotely. And intelligent enough to let you customize your water's softness.

The full-featured high-efficiency water softener is great for any size home. The 1" valve allows for uninterrupted water pressures and varying tank sizes ensure consistent quantities of soft water.

The Culligan logo, featuring the brand name in a blue, cursive script font with a registered trademark symbol.

*46% less versus a time clock regeneration softener.

CULLIGAN® HE SERIES

Product Specifications

Patented Smart Technology

- Automatic bypass valve provides the convenience of bypassing the water softener from the softener itself or the remote display.
- Exclusive Culligan® Soft-Minder® meter monitors daily water use and provides advanced system diagnostics.
- The easy-to-read back-lit display with digital clock lets you know your softener is working and warns of system malfunctions.
- Culligan's Dial-a-Softness® control lets you choose the way you want your water to feel.

Options Available

- Optional proportional brining allows your softener to only regenerate that part of the resin bed that has been exhausted, which reduces salt usage.
- Culligan's optional Aqua-Sensor® technology automatically adjusts to changes in water conditions so the softener only regenerates when needed, saving you salt, water and money.
- Optional smart brine tank automatically monitors salt levels and tells you how many days of salt are remaining.
- Optional remote display makes it possible to control and monitor the softener from virtually anywhere in the home†.
- Optional modem can alert Culligan dealership if salt is needed or softener needs service.

Exclusive Reliable Design

- Exclusive, non-corrosive valve using motorized pistons that provide more reliability than rotary valve systems.
- High-impact Quadra-Hull® Tank stands up to outdoor use with a four-layer design that resists UV rays, rust and corrosion. Limited lifetime warranty.
- With the Cullex® resin media your water softener is assured stability and long life. High-grade quartz underbedding evenly distributes water to maximize flow rates.
- Long-lasting brine tank with corrosion-proof components and Dubl-Safe brine refill control assure proper operation.
- Culligan HE Series also available as an outdoor model.

†Requires 120 VAC
